

Directions to Luz Curativa

Driving Directions:

- Take the exit for Tepoztlan. Follow the exit towards the gas station, but before the gas station there is a turn-around to go back towards the Autopista (towards Mexico).
- Take the turn-around and pass the exit for Cuautla (don't take it).
- Before you get to the entrance for Mexico you will see a sign to the right that says "**S. JN TLACOTENCO.**" Take this turn to the right and down, then immediately you will take a left turn, going uphill. (This is the road to San Juan Tlacotenco.)
- Keep going up the road about 1 km. When you see the sign for 1 km the road makes an S-curve. After you pass the S-curve you will take the third entrance to the right, which has a sign that says "**OCELOTZIN.**"
- Turn right and follow the road up. It turns to the left (do not go into the mechanic's shop). There are small signs, in the form of a sun, painted on the trees. Keep following the road and these signs.
- When the road begins to curve to the right and go down you will see a blue arrow that points to the left and you will turn to the left, through the big, red gates. You can park anywhere along this road. We are the first house on the left, with a sign that says "**LUZ CURATIVA.**"

By combi:

- From Central Tepoztlan take the combi for "Ocotés".
- When the combi starts to climb up the road to San Juan Tlacotenco, watch for the road to make the S-curve. Shortly after this you will see the sign for "**OCELOTZIN**" on the right. You will get off the combi and walk up this road.
- From here you can follow the last two parts of the driving directions, above.
